UTOPIA EXTENDS YOU™ MODULAR RANGE

Utopia Bathroom Group has added a new high gloss finish and a range of new single drawer cabinets to its popular YOU™ range of modular bathroom furniture.

Offering a very distinctive and sophisticated look, Midnight Grey Gloss is a dramatic new shade in a durable high gloss finish. It is available as both a carcass and door option.

Also new for 2008 is a range of single drawer cabinets in 600, 800, 1000, 1200 and 1600mm widths. These can be teamed with the new Quantum Square sit-on basin or with a Gelcast or ceramic slab-top basin.

Complementing this new style of cabinet are two new 1200mm and 1600mm mirrors which can be hung horizontally or vertically and are available in Walnut, Light Oak or Midnight Grey Gloss

An additional opportunity to co-ordinate the overall look of the bathroom is offered by a stylish new toilet panel, available in Walnut, Light Oak and Midnight Grey Gloss and suitable for use with wall hung or back-to-wall toilet units.

Commenting on the extended offer, Helen Bray, Utopia's marketing manager, said, "Modular furniture now plays an important role within our product portfolio, with the new introductions marking the second phase of the YOU™ range. Significant growth is predicted for this particular sector and our range extension is designed to take full advantage of this. Midnight Grey Gloss presents the consumer with an exciting but softer alternative to black gloss and the new single drawer options offer an even more sharply defined minimalist look."
