Floor And Wall Tiles

We've got the perfect selection of wall and floor tiles and complete your bathroom.

Utopia baths feature a Resinite coating for increased surface durability and a long life

All Utopia baths feature Resinite Bath Technology which provides triple layer reinforcement and a 5mm ICI acrylic top coat giving extra strength, rigidity and longevity.

Utopia baths are different

Utopia baths are made in the UK to the very highest standards. Our stringent quality control procedures ensure that each bath is checked thoroughly at every stage of manufacture.

Resinite coated baths offer the strength and rigidity normally associated with their heavier cast iron counterparts. The entire underside of each bath is coated in a layer of Resinite which provides excellent insulation properties, meaning your bath retains heat more efficiently, staying hotter for longer.

Handle Overview

Please check if your chosen furniture range comes as standard with handles or if these are to be purchased separately. You can also purchase extra handles should you so wish. Choose a handle style to complement your choice of door from the matrix below.

Zara and Arabella doorstyles
From the Original Fitted Collection both come with their own integrated handle, in a choice of finishes.

Nadia doors
Designed to be used with the Nadia handle, but any style can be used, although these will not be pre-drilled for. The three Nadia handle options Bar, Bow and Quill are in various sizes to suit the Nadia doorstyle. Certain reduced depth units doors with Nadia handles may not open fully if adjacent to deeper units. Nadia handles can be chosen for all other doorstyles but won't be factory fitted. If you choose not to have a Nadia handle with a Nadia doorstyle these handles will not be factory fitted.

Bathroom Electrical Zones

Utopia cabinets with electrical components are not suitable for use in zones 0, 1 or 2. The bathroom zones are shown in the diagram below and where electrical components can be fitted.

Zone 0

Covers the areas inside the bath or shower area. If you decide to illuminate this area the fittings must be low voltage and must have a minimum rating of IP67 making them immersion proof.

Zone 1

Covers the area directly above the bath or shower area to a height of 2.25m from the floor. A light with a minimum IP44 rating is required for this area. If the light uses 240V supply, a 30ma RCD (residual current device) must be used to protect the circuit in this zone.

Zone 2

Covers the area 0.6m outside the bath's perimeter and to a height of 2.25m from the floor. As with Zone 1, a minimum IP44 rating is required for this area.

Outside Zones

Outside zones cover areas which fall outside of Zone 0,1 and 2 and are well away from any contact with water. No IP ratings are required for light fittings in this area.

Terms and Conditions

TERMS AND CONDITIONS

We hope you found our brochure inspirational and informative. We make every effort to display colours accurately, but cannot guarantee an absolute match on our website and in our printed material so you may find that products vary slightly in colour. Many of our products are made to order, meaning that some of our product sizes and measurements indicated in our promotional material may be subject to slight variation and we'd ask you to plan accordingly. All orders for furniture as well as bespoke worktops including the Integrated Coralux washbasin work surface cannot be cancelled or amended once they have been submitted to our manufacturing department.

SAMPLE SERVICE

You will find displays of our furniture styles, colour samples of finishes, worktops and tiles are available to view at over 550 Utopia specialist retailers across the UK. To find your nearest showroom visit our website. We also offer a free online sample service where you can order your preferred colours of finishes and worktops from our website to review in the comfort of your home.

GENERAL GUARANTEE TERMS

All Utopia products are designed and manufactured to comply with or exceed accepted industry standards and tolerances. In the unlikely event that a product fails to meet our high expectations it will be replaced free of charge. Any product deemed to fall within accepted standards and tolerances will be subject to a replacement fee.

GENERAL GUARANTEE:

1. Applies when:
 - 1.1 Products are installed correctly in accordance with our fitting instructions and are for domestic use in a room with suitable ventilation; we highly recommend the use of an extraction fan.
 - 1.2 Cisterns and taps are fitted in accordance with current local and national water regulations.
 - 1.3 Furniture is not used in a wet room environment or in frequent direct contact with water.
 - 1.4 Coralux Solid Surface products have been stored correctly in accordance with our packaging instructions; specifically these must be stored flat at normal room temperature prior to installation to avoid any distortion.
2. In the event of a product failure within the guarantee period (from the date of purchase) Utopia will supply a free of charge replacement for the failed item. If that part is no longer available, a nearest equivalent replacement will be supplied. Our guarantee is limited to the products supplied and does not cover any associated installation costs, consequential loss or damage claims.
3. The terms of this guarantee do not affect consumer statutory rights.
4. Any guarantee is limited to the original purchaser, is non-transferable and does not cover the purchase of ex-display items.
5. To obtain replacement parts in accordance with the terms of this guarantee, please contact the retailer who supplied the products.
6. Product guarantees may be invalidated through incorrect care and maintenance procedures. These are contained in the original product packaging and are also available from our Customer Services team.
7. All electrical installations must be carried out by a suitably qualified electrician. Your guarantee does not cover products incorrectly installed.

BATHROOM FURNITURE

Utopia furniture has been specifically designed and manufactured for performance in general bathroom use and carries a 5 year guarantee. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using a suitable extraction fan to avoid this. Failure to ensure adequate ventilation may invalidate your guarantee. Bathroom furniture is not specified or designed for use in areas of regular or direct contact with water, particularly in wet room environments or where direct and/or regular water contact is prevalent. Any guarantee does not extend to this use. In respect of furniture containing electrical components, these items are unsuitable for zones 0, 1 & 2 installations. If you are in any doubt, please consult a qualified electrician. Please refer to individual product pages within the Utopia price list for IP rating information or bathroom zone suitability.

CARCASS MATERIAL

Many of our finishes are intended to replicate natural materials such as wood and stone where pattern and shade variation are distinct parts of the design.

CORALUX SOLID SURFACE PRODUCTS

Some of our Solid Surface worktop range is designed to replicate natural stone material and is subject to colour, tone and pattern variation. Coralux Solid Surface products are fabricated and finished by hand to individual order requirements and carry a 5 year guarantee. We strongly recommend you agree the measurements of any Solid Surface items against our order confirmation, as it may not be possible to make further amendments to orders after this stage, at which point any order becomes chargeable in full. If amendments are possible, charges may apply based on the stage of manufacturing completion at that time.

MINERALCAST PRODUCTS

Mineralcast products carry a 5 year guarantee and are supplied with a 2% dimensional tolerance.

BATHS

Baths are supplied with a 30 year guarantee against manufacturing defects. All baths are supplied undrilled. All baths are manufactured and supplied using high quality 5mm cell cast acrylic, are fully reinforced with Resinite technology and are delivered with a protective film to prevent scratching.

SHOWER SCREENS

All shower screens are supplied with a 5 year guarantee against manufacturing defects. All shower screens are supplied with 8mm toughened glass (except Symmetry with 6mm) and Clearshield technology, a permanent water repellent coating that reduces the growth of bacteria and mould. These products can be susceptible to damage during installation and any product faults must be reported prior to installation.

SANITARYWARE

Utopia sanitaryware carries a lifetime guarantee against manufacturing defects with the exception of the Quinn sit-on basins which carry a five year guarantee (dedicated Quinn waste covers 2 years) and is supplied with a 2% dimensional tolerance. Installation must be in accordance with the instructions provided and failure to comply with these may invalidate the guarantee. In respect of wall-hung products, recommended fixing brackets and frames must be used. These are not included with our wall-hung pans.

TOILET SEATS

A 2 year guarantee applies to all toilet seats and related components. It is the responsibility of the consumer to ensure that suitable cleaning products are used. Do not use abrasive cleaning products or cleaning products that contain chlorine or acids, as these may cause yellowing or peeling of the material. After cleaning, wipe the seat with a well wrung out cloth. Leave the seat and lid up whenever strong cleaning products are left in the bowl of the toilet pan to prevent damage from vapours.

CONCEALED CISTERNS

Concealed cisterns carry a 5 year guarantee against manufacturing defects. It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided.

BRASSWARE

Brassware products are either suitable for high or low pressure, some are suitable for both so please refer to the product description for further information. Brassware carries a 10 year guarantee on brassware and a 5 year guarantee on cartridges against manufacturer defects. Black and Brass finish brassware carries a 2 year guarantee. All basin and bath wastes carry a 5 year guarantee for chrome finishes and a 2 year guarantee for Ceramic, Matt Black and Brushed Brass finishes

TILES

We carefully select our range of tiles to co-ordinate with our furniture, however the production method of tiles mean that shading and colour may vary across different production batches. Order fulfillment will be from a single production batch wherever possible. We recommend taking all the tiles out of the box before installation and installing them according to slight shade differences rather than installing them directly from the box one by one. We recommend that you keep a note of your batch number in case additional tiles are required. Time difference from the original order will reduce the likelihood of the same batch being available. Our tile collection contains both wall and floor tiles. Floor tiles can be used on the walls but wall tiles are unsuitable for use on floors. In line with our restocking policy, a minimum of two full, unopened boxes can be returned within 28 days of purchase, subject to the tiles and packaging being in a resaleable condition from the same batch and same original order.

COMMERCIAL APPLICATIONS

A 12 month guarantee applies to all products fitted in a commercial environment.

CARE AND MAINTENANCE

We always aim to provide the best quality products but there are occasions when this isn't possible. We have found that most issues stem from poor ventilation in bathrooms. We recommend that you ensure your bathroom is well ventilated using a suitable air extraction fan before our products are fitted. We regret that we cannot guarantee our products if they have been fitted in a poorly ventilated bathroom. Our specialist retail showrooms can provide advice and help you make the right ventilation choices. With proper care and maintenance your bathroom products will last for years to come. The best and safest cleaning method is to use only warm water or pH neutral cleaner with a soft clean cloth. Never use an abrasive cloth. Never use chlorine, caustic, acid or alkaline based cleaners.

OUR ENVIRONMENTAL COMMITMENT

Sustainability is high on our agenda and we strive to make the least environmental impact. From the wood we use, the energy we consume, to our transport logistics, we take care to ensure we operate as responsibly as possible. The information contained in this brochure is correct at the time of print as of March 2025. However, we reserve the right to alter materials and specifications in line with our continuing programme of product and service development.

HOW TO ACTIVATE YOUR UTOPIA GUARANTEE

Once your bathroom has been installed remember to activate your guarantee on our website. You will need to include the name of the Utopia retailer you purchased from.
