

Installation Guide

Roseberry Bath Side Panel

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.

Installation

Set the height of the bath to suit the height of the bath panel according to the instructions supplied with the bath.

Ensure that when the brackets and bath panel are fitted, the panel sits 4mm proud of the bath rim.

If you are installing this side panel in conjunction with an end panel, fit the end panel first according to the instructions supplied with it.

Screw three black Keku clips to the underside of the wooden batten underneath the bath rim using the screws provided. The three clips should be equally spaced along the length of the bath. Use the diagram as a guide to how the Keku clips are fitted.

The matching Keku clips should be screwed to the rear of the bath panel using the screws supplied. Measure carefully to ensure that the clips on the rear of the bath panel will engage with the clips screwed to the bath.

If the bath panel is being fitted between two walls, the two "L" brackets should be secured to the walls to prevent the panel from being pushed inwards. Ensure suitable fixings are used.

If the bath panel is being used in conjunction with an end panel, secure one "L" bracket to the wall to prevent the panel from being pushed inwards. On the opposite side to the wall, secure the bath panel in place using a Keku clip. This Keku clip is supplied with the end panel, along with instruction on how it is fitted.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Glass or mirrored panels should be cleaned using a non-solvent based glass cleaner and a soft cloth. Spills should be removed immediately using a clean cloth. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using suitable extraction. Failure to ensure adequate ventilation may invalidate your guarantee. If it required to use the touch-up paint, ensure that the surface is dry and clean and free from dust or oils. The paint should be applied using a slightly damp sponge. Carefully dap the paint onto the required area and leave it to dry. Several coats may be necessary to build-up the paint to give the required finish.

Installation Guide

Roseberry Bath End Panel

Important Information

- Read the instructions carefully.
- Ensure product contents are complete.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and use appropriate fixings.
- Care should be taken when drilling to avoid any hidden wires or pipes.

Installation

Set the height of the bath to suit the height of the bath panel according to the instructions supplied with the bath

Fit the end panel before installing the side panel

Ensure that when the brackets and bath panel are fitted, the panel sits 4mm proud of the bath rim.

Secure one "L" bracket to the wall using suitable fixings. It is recommended that the bracket is fitted 300mm vertically from the underside of the bath.

Secure the second "L" bracket to the underside of the wooden batten under the bath rim using the screws provided.

Screw one of the black Keku clips to the opposite side of the end panel to the wall. The matching Keku clip should be screwed to the back of the front panel. Use the diagram as a guide to how these are fitted.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using suitable extraction. Failure to ensure adequate ventilation may invalidate your guarantee. If it required to use the touch-up paint, ensure that the surface is dry and clean and free from dust or oils. The paint should be applied using a slightly damp sponge. Carefully dap the paint onto the required area and leave it to dry. Several coats may be necessary to build-up the paint to give the required finish.

Installation Guide

Roseberry Toilet Unit Without Cistern

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and the weight of the cabinet and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.

Installation

To fit a concealed cistern into the WC unit, pull the front top fascia away from the cabinet with equal force on each side. The lower front panel can now be lifted upwards away from the cabinet. Secure the cistern in position according to the instructions supplied with it.

To secure the WC unit against the wall, drill through the rear top rail. Fix the unit in position using suitable fixings.

To cut the lower front panel to accommodate the toilet soil pipe and cistern flush pipe, use a jigsaw with a fine-toothed blade suitable for timber. Ensure that the room is well ventilated when cutting the material.

All cut edges must be sealed with paint, PVA glue or good-quality sanitary grade silicone sealant to prevent the ingress of moisture.

Re-fit the top fascia panel last, after plumbing connections have been made and installation completed.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Glass or mirrored panels should be cleaned using a non-solvent based glass cleaner and a soft cloth. Spills should be removed immediately using a clean cloth. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using suitable extraction. Failure to ensure adequate ventilation may invalidate your guarantee. If it required to use the touch-up paint, ensure that the surface is dry and clean and free from dust or oils. The paint should be applied using a slightly damp sponge. Carefully dap the paint onto the required area and leave it to dry. Several coats may be necessary to build-up the paint to give the required finish.

Installation Guide

Roseberry Back-To-Wall Toilet Unit

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and the weight of the cabinet and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.

Installation

Remove the top fascia panel first by pulling it away from the cabinet with equal force on each side.

Turn the unit upside down. Push the legs firmly into the leg sockets.

Stand the unit back on its legs against the wall. Adjust the legs on the units until they are level. Secure the unit to the wall by drilling through the back rail and using suitable fixings for the wall type.

If this cabinet is being fitted in a run, secure the units together with suitable fixings through the gables. Try to hide the fixings where possible behind shelves or hinge plates.

To cut the lower fascia panel to accommodate the soil pipe and cistern flush pipe, use a jigsaw with a fine-toothed blade suitable for timber. Ensure that the room is well ventilated when cutting the material.

All cut edges must be sealed with PVA glue or good-quality, sanitary grade silicone sealant to prevent the ingress of moisture.

Fit the top fascia panel last, after plumbing connections have been made and installation completed.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Installation Guide

Roseberry Washbasin Unit

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and the weight of the cabinet and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.
- If the fascia is to be cut, use a saw with a fine-toothed blade ensuring that the room is well ventilated. Any cut edges should be sealed with PVA glue or silicone sealant to prevent the ingress of moisture.

Installation

Remove the doors, fascia panel and shelf and turn the unit upside down. Push the legs firmly into the leg sockets.

Stand the unit back on its legs against the wall. Adjust the legs on the units until they are level. Secure the units to the wall by drilling through the back rail and using suitable fixings for the wall type.

If this cabinet is being fitted in a run, secure the units together with suitable fixings through the gables. Try to hide the fixings where possible behind shelves or hinge plates.

Door Hinge Adjustment

- To square the door against the cabinet, turn screws A until adjusted as required.
- To adjust the door closer to or further away from the cabinet, turn screws B.
- To adjust the door vertically, slacken screws C. Re-tighten once the door is adjusted as required.
- To remove the door hinges from the cabinet, press button D.
- To remove the door hinges from the door, remove screws E.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Spills should be removed immediately using a clean cloth. Some furniture polishes are unsuitable for use on painted surfaces. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using suitable extraction. Failure to ensure adequate ventilation may invalidate your guarantee. If it required to use the touch-up paint, ensure that the surface is dry and clean and free from dust or oils. The paint should be applied using a slightly damp sponge. Carefully dap the paint onto the required area and leave it to dry. Several coats may be necessary to build-up the paint to give the required finish.

Installation Guide

Roseberry Framed Mirror

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and the weight of the product and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.

Installation

Push the plastic inserts into the rear of the mirror panel.

Note: the mirror can be fitted portrait or landscape.

Ensure that the inserts are aligned in the correct direction. Once the inserts have been fitted, they cannot be removed.

Mark the wall to suit the distance between the centres of the inserts.

Drill the wall and secure the fixings (not supplied) at the marked positions.

Note: you must ensure that the fixings are suitable for the weight of the mirror and the wall type.

Hang the mirror onto the wall fixings, ensuring that they are located securely into the inserts.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Glass or mirrored panels should be cleaned using a non-solvent based glass cleaner and a soft cloth. Spills should be removed immediately using a clean cloth. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using suitable extraction. Failure to ensure adequate ventilation may invalidate your guarantee. If it required to use the touch-up paint, ensure that the surface is dry and clean and free from dust or oils. The paint should be applied using a slightly damp sponge. Carefully dap the paint onto the required area and leave it to dry. Several coats may be necessary to build-up the paint to give the required finish.

Installation Guide

Roseberry Single Base Unit

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and the weight of the cabinet and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.

Installation

Remove the shelf, turn the unit upside down and push the legs firmly into the leg sockets.

Stand the unit back on its legs against the wall. If fitting a run of units, fix them together through the gable panels. Where possible, try to hide the fixings behind shelves or hinge plates.

Adjust the legs on the units until they are level.

Secure the unit to the wall by drilling through the back rail and using suitable fixings for the wall type.

Door Hinge Adjustment

- To square the door against the cabinet, adjust screws A.
- To adjust the door closer to or further away from the cabinet, adjust screws B.
- To adjust the door vertically, slacken screws C. Re-tighten once the door is adjusted as required.

Roseberry Single Wall Unit

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is the installer's responsibility to carry out a thorough assessment of wall type and the weight of the cabinet and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.
- To prevent the cabinet falling down this product must be fixed using the wall attachment device provided.

Installation

Mark a horizontal line on the wall at the required height **X---X**. Ensure that the wall brackets will fit inside the width of the cabinet and are equally spaced to ensure even distribution of weight. Secure the wall brackets to the wall using suitable fixings.

Hook the unit onto the wall brackets ensuring that the brackets are securely located.

To alter the position of the cabinet on the wall, adjust the two screws in each hanging bracket. The top screws will move the cabinet closer to or further away from the wall. The lower screws will move the cabinet up and down.

If this cabinet is being fitted in a run, secure the units together with suitable fixings through the gables. Try to hide the fixings where possible behind shelves or hinge plates.

A securing screw should be fitted through the back of the unit through the fixed back of the cabinet and into the wall, this will help to stabilise the unit.

- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the installation environment (i.e. wall type/structure and the combined weight of the cabinet and basin) and use appropriate fixings.
- Care should be taken when drilling to avoid any hidden wires or pipes.
- To prevent the cabinet falling from the wall this product must be fixed using the wall attachment device and brackets provided.

Installation

Mark a horizontal line on the wall at the required height **X---X**. Ensure that the wall brackets will fit inside the width of the cabinet and are equally spaced to ensure even distribution of weight. Secure the wall brackets to the wall using suitable fixings.

Hook the unit onto the wall brackets so that the spring locks the arm into place.

To alter the position of the cabinet on the wall, adjust the two screws in each hanging bracket. Adjusting screws **A** will move the cabinet up and down. When the cabinet is level on the wall, screws **B** will tighten the call to the wall.

Drawer Adjustment

To adjust the drawer front horizontally, press the lever underneath the drawer box side and move the door as required.

To adjust the drawer front vertically, slacken screw 1 and turn screw 2 until moved as required.

To adjust the tilt of the drawer front, use the screw located on the inside rear side of the drawer box.

To remove the drawer front, press the lever on the underside of the drawer box and lift the drawer front upwards.

To re-fit the drawer front, engage the tag on the drawer clip into the drawer sides and push it onto the drawer box

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Spills should be removed immediately using a clean cloth. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using suitable extraction. Failure to ensure adequate ventilation may invalidate your guarantee. If it required to use the touch-up paint, ensure that the surface is dry and clean and free from dust or oils. The paint should be applied using a slightly damp sponge. Carefully dap the paint onto the required area and leave it to dry. Several coats may be necessary to build-up the paint to give the required finish.

Important Information

- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the installation environment (i.e. wall type/structure and the combined weight of the cabinet and basin) and use appropriate fixings.
- Care should be taken when drilling to avoid any hidden wires or pipes.
- To prevent the cabinet falling from the wall this product must be fixed using the wall attachment device and brackets provided.

Installation

Turn the unit upside down and push the legs firmly into the leg sockets.

Stand the unit on its legs against the wall. Adjust the legs on the units until they are level.

Secure the unit to the wall by drilling through the back rail and using suitable fixings for the wall type.

If this cabinet is being fitted in a run, secure the units together with suitable fixings through the gables. Try to hide the fixings where possible behind shelves or hinge plates.

Drawer Adjustment

To adjust the drawer front horizontally, press the lever underneath the drawer box side and move the door as required.

To adjust the drawer front vertically, slacken screw 1 and turn screw 2 until moved as required.

To adjust the tilt of the drawer front, use the screw located on the inside rear side of the drawer box.

To remove the drawer front, press the lever on the underside of the drawer box and lift the drawer front upwards.

To re-fit the drawer front, engage the tag on the drawer clip into the drawer sides and push it onto the drawer box.

Door hinge adjustment

- To square the door against the cabinet, adjust screws A.
- To adjust the door closer to or further away from the cabinet, adjust screws B.
- To adjust the door vertically, slacken screws C. Re-tighten once the door is adjusted as required.
- To remove the door hinges from the cabinet, press button D.
- To remove the door hinges from the door, remove screws E.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Roseberry Corner Base Unit

Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that a technically competent installer undertakes installation.
- It is the installer's responsibility to carry out a thorough assessment of the wall type and the weight of the cabinet and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.

Installation

Remove the shelf, turn the unit upside down and push the legs firmly into the leg sockets.

Stand the unit back on its legs against the wall. If fitting a run of units, fix them together through the gable panels. Where possible, try to hide the fixings behind shelves or hinge plates.

Adjust the legs on the units until they are level.

Secure the unit to the wall by drilling through the back rail and using suitable fixings for the wall type.

Door Hinge Adjustment

- To square the door against the cabinet, adjust screws A.
- To adjust the door closer to or further away from the cabinet, adjust screws B.
- To adjust the door vertically, slacken screws C. Re-tighten once the door is adjusted as required.
- To remove the door hinges from the cabinet, press button D.
- To remove the door hinges from the door, remove screws E.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Spills should be removed immediately using a clean cloth. Important Information

- Read the instructions carefully.
- Check the product for any signs of damage and remove any protective film.
- It is recommended that this product is fitted by a suitably qualified Part P registered electrician in accordance with current IEE & Building Regulations.
- It is the installer's responsibility to carry out a thorough assessment of wall type and the weight of the cabinet and use appropriate fixings.
- Care should be taken when drilling walls to avoid any hidden wires or pipes.
- To prevent the cabinet falling down this product must be fixed using the wall attachment device provided.
- The light source in this luminaire is not replaceable. When the light source reaches its end of life, the whole luminaire must be replaced.
- The terminal block used to connect the leads to the electrical supply can be of either the screw- or screw-less type and should be rated at 240V 6A with 4 terminals. The cable tails do not need to be crimped when connected to the terminal block.
- The driver can be screwed to the internal top rail of the cabinet or left to hang in the void between the cabinet and the wall.
- This product should be used only with a mains supply that is protected by a 30mA Residual Current Device.
- This product is IP20 Rated and is only suitable for installation in Outside Zones in a bathroom. It is not suitable to be fitted in zones 0, 1 or 2.

Connection to Mains Electrics

Turn off the electrical supply.

Ensure that the cable connector from the under-cabinet light is fitted into the connector port on the driver (A).

Connect the mains lead from the shaver transformer to the electrical supply in the bathroom. It is recommended that this lead is connected to a constant electrical feed.

Connect the mains lead from the under-cabinet lights to the electrical supply in the bathroom. It is recommended that this lead is connected to the bathroom light circuit or a room sensor.

Turn the electrical supply back on and check that the lights and shaver socket function as required.

WARNING RISK OF ELECTRIC SHOCK

Turn off Mains Electric prior to commencing work.

Bathroom Lighting Zone

Fitting Cabinet to Wall

Mark a horizontal line on the wall at the required height **X---X**. Ensure that the wall brackets will fit inside the width of the cabinet and are equally spaced to ensure even distribution of weight. Secure the wall brackets to the wall using suitable fixings.

Hook the unit onto the wall brackets ensuring that the brackets are securely located.

To alter the position of the cabinet on the wall, adjust the two screws in each hanging bracket. The top screws will move the cabinet closer to or further away from the wall. The lower screws will move the cabinet up and down.

A securing screw should be fitted through the back of the unit through the fixed back of the cabinet and into the wall, this will help to stabilise the unit.

Door Hinge Adjustment

- To square the door against the cabinet, turn screws A until adjusted as required.
- To move the door closer to or further away from the cabinet, adjust screws B.
- To adjust the door vertically, slacken screws C. Re-tighten once the door is adjusted as required.
- To remove the door hinges from the cabinet, press button D.
- To remove the door from the door hinges, remove screws E.

Care & Maintenance

Furniture should be regularly dusted with a soft cotton or micro-fibre cloth. For more thorough cleaning, occasionally wipe your furniture with a soft cloth dampened with a mild detergent solution. Surfaces should be thoroughly dried with a lint free cloth to prevent watermarks. Under no circumstances should solvent cleaning agents, bleach or abrasive cleaning agents or cloths be used. Glass or mirrored panels should be cleaned using a non-solvent based glass cleaner and a soft cloth. Spills should be removed immediately using a clean cloth. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation so bathrooms must be adequately ventilated using suitable extraction. Failure to ensure adequate ventilation may invalidate your guarantee. If it required to use the touch-up paint, ensure that the surface is dry and clean and free from dust or oils. The paint should be applied using a slightly damp sponge. Carefully dap the paint onto the required area and leave it to dry. Several coats may be necessary to build-up the paint to give the required finish.
