Introducing the Latest Additions to our Lustre Collection

This season, Lustre evolves once again with a series of elegant new touches. We're unveiling two sleek and eye-catching new finishes that bring a fresh sense of style to the collection. To complement them, we're also introducing two new handle trims, Matt Black and Brushed Brass, both designed to work beautifully across the entire collection, offering even more ways to personalise your look.

With these refined new options, Lustre is more versatile and contemporary than ever. Perfect for creating a bathroom that feels truly bespoke.

Lustre in Rift Black and Black with Brushed Brass

Lustre is all about beautiful, tactile surfaces and now the collection becomes even more sophisticated with the arrival of Rift Black.

This striking new finish combines a rich woodgrain effect on the unit sides with a gleaming plain black glass frontage, creating a dramatic interplay of texture and sheen. The result is a surface that feels as luxurious as it looks, opening up endless new design possibilities for truly distinctive bathrooms.
