Care and Maintenance Guide

## Baths

---

### Baths

All Utopia baths feature Resinite bath technology which provides triple-layer reinforcement and a 5mm ICI acrylic top coat giving extra strength, rigidity and longevity.

All baths are supplied with a 30 year guarantee against manufacturing defects. All baths are supplied undrilled and are delivered with a protective film to prevent scratching during installation.

### Cleaning

The acrylic surface of Resinite should be cleaned regularly with warm soapy water. Preferably, the product should be cleaned immediately after use, rinsed with cold water and, if desired, dried with a soft cloth.

Never use scouring powders or abrasive cleaners. We strongly recommend you follow the instructions on the bottle of your chosen cleaner. Avoid contact with other household chemicals such as hair dyes, carpet dyes, paint strippers, strong disinfectants, alcohol, aftershave, perfumes and nail varnishes and their removers or bleaches. If by accident contact happens, dilute with hot soapy water and wash away, drying the surface. Some soaps and shampoos can discolour Resinite acrylic if allowed to pool, undiluted, on its surface.

The effect of tobacco smoke in close proximity of your bath may discolour the product and is NOT recommended. Burning cigarettes will melt the acrylic surface.

**Note: Never place ladders or similar household aids in the bath.**
