Care and Maintenance Guide

# Coralux Solid Surface worktops

---

## Coralux Solid Surface Worktops

Coralux Solid surface products are fabricated and finished by hand to individual order requirements and carry a five year guarantee.

General care in preserving the beauty and functionality of Coralux solid surfacing can be as simple as wiping regularly with a damp cloth.

To protect against stains, cuts and heat damage, please pay careful attention to the information below.

### Cleaning Stains

Because Coralux solid surface is non-porous, liquids and stains remain on the surface so they can be removed.

- Use a damp cloth and warm soapy water, to clean the top immediately all over.
- Wipe with a clean damp cloth to remove the soapy water.
- Dry with a clean, soft, dry cloth.

### Stain Removing

Rinse off household chemicals immediately, then clean the surface with warm soapy water and wipe dry.

We recommend that you use warm soapy water or a solution of mild, non abrasive detergent to clean your solid surface worktop.

If you are in any doubts as to how to care for your Coralux solid surface worktop, please contact your retailer, or alternatively call customer services on 01902 406402.

### Heat

Never place hot objects or heat producing appliances directly onto your Coralux solid surface worktop.

Always use a heat shield, hot pad or trivet to avoid marking the surface.

### Caution

Cleaners of a gritty or abrasive nature should not be used. Care should be taken to avoid contact with strong chemicals such as organic solvents, nail care products and removers or paint strippers.
